Children must be accompanied by a parent or legal guardian. Parent or legal guardian should remember to bring the child's immunization records.

Florida law requires that all children from birth through 18 years follow recommended immunization schedules and guidelines. The recommended schedules and guidelines can be found on the health department's website at www.browardchd.org. Children must be immunized before entering any Broward County School.

To avoid the long lines associated with "back to school," plan a visit to one of Broward County Health Department's Immunization Outreach locations during the coming summer months.

For more information and Outreach locations, dates and times, call the Broward County Health Department's Immunization Outreach Office at (954) 467-4856 or visit www.browardchd.org.
